

## Evenex Sincro

### Care & Maintenance

**EVENEX SINCRO IS FORMULATED PRIMARILY FOR DRY-USE AREAS:**

- Use either a soft dry cloth or feather duster to remove surface dust.
- If dust accumulation is heavy, the surface may be lightly vacuumed.
- Protect from direct, bright or reflected sunlight and heat.

**IF FURTHER CLEANING IS REQUIRED:**

- Before cleaning, first test on a small, inconspicuous area.
- Blot soiled areas with a soft, clean cloth dampened with a weak solution of mild liquid detergent.
- Dry with a soft cloth.
- Do not allow the surface to become excessively wet.
- Do not apply cleaners, solvents or chemicals of any kind.
- If you do want to try a chemical, please do so on an off-cut.
