COMPOSITION

Decorative papers impregnated with water based resins;
non woven fabric, cellulose fibre support.

HAZARDS

None

FIRST AID MEASURES

None

FIREFIGHTING MEASURES

In case of fire use nebulized water, CO foam, dry extinguisher.

CLEANING MEASURES

None

STORAGE AND HANDLING

We recommend the use of working gloves in order to avoid
skin cuts. The rolls are protected with a polyethylene HD film;
it is suggested to keep the rolls in the original packing and store
them in conditioned area sheltered from direct sun rays.

INDIVIDUAL PROTECTION

Gloves are recommended during manufacturing.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance: solid

Thickness: as required

Superficial finishing: as required

Odour: none

Solubility in water: insoluble

Solubility to organic solvents: insoluble

Solubility in acid and alcohol: insoluble

STABILITY AND REACTIVITY

No decomposition

TOXICOLOGICAL INFORMATION

Skin irritation: not irritating

Eye irritation: not irritating

ECOLOGICAL INFORMATION

Product that can be assimilated to urban waste.

WASTE DISPOSAL

Product that can be assimilated to urban waste.

TRANSPORT INFORMATION

Not dangerous goods in accordance with transport regulations.

OTHER INFORMATION

Information contained in this safety datasheet is based on our
current knowledge and must not be used as guarantee of
specific properties. Current regulations and instructions must
be respected by the recipient of our products under own
proper responsibility.
